A quorum was not present.

PUBLIC PRESENTATION

Mrs. Jean Siri  
West Contra Costa County Conservation League  
Gray Panthers of Contra Costa County

in her comments stated that there were too few enforcement personnel.

Mr. Kopp arrived at 9:50 A.M. A quorum was now present.

Mrs. Ketcham arrived at 9:51 A.M.

Mrs. Siri reviewed the odor episode during the past few weeks and the news reports thereon; that she found it necessary to appeal the APCO's decision with respect to the Wickland Oil Company terminal trade-off requirement; that the area for the proposed terminal could not stand any more oil pollution; suggested that the same standards for new refineries apply to old refineries; that every up-set should be considered a violation; that Standard Oil has had thirty-five violation breakdowns since March but that the District knew of only eight, and suggested that the breakdown regulation be amended; that larger penalties could provide funds for more inspectors; that the Board should reorder the priorities of the District.

Mr. Ogawa arrived at 9:55 A.M.

Mr. Feldstein in response, referred to his report entitled, Odor Episode in the Richmond Area on January 23, 1980, dated January 31, 1980, which Mr. Brinkley reviewed, making a correction in paragraph 1, line 6, to read, "at 11:00 A.M. . . ." He stated that the Staff had an office conference with Chevron personnel and that corrective action will be taken; that it is proposed that there be six additional enforcement persons in the field in 3-4 months.

Mr. Feldstein reviewed the history of the break-down regulation, after which Chairperson Boxer requested that the matter be agendized in two months for review.

QUARTERLY REPORT OF HEARING BOARD  
Kenneth A. Manaster, Chairperson

Mr. Manaster called attention to the report entitled, Hearing Board Quarterly Report-October 1, 1979-December 31, 1979, dated January 1, 1980. He outlined the Hearing Board's activities for the past year, stating that the number of complex cases is increasing. He reviewed the specific cases of Citizens for a Better Environment appeal with respect to the Kaiser Cement Company; APCO vs. North San Mateo County Sanitation District; and Citizens for a Better Environment appeal with respect to Wickland Oil Company.

In discussion, Mr. Powell advised that the Hearing Board did not have an attorney in connection with the appeal in Superior Court of the Hearing Board's decision on CBE's Appeal with respect to the Kaiser Cement Company because the Hearing Board is not a Real Party in Interest.

Mr. Cooper arrived at 10:10 A.M.

Mr. Manaster pointed out that CBE is representing the Hearing Board Order on some points and that Mr. Powell is representing some of the challenges to the District Regulations.

Mr. Manaster reviewed the two issues in the Wickland Oil Company case.

Dr. Hasseltine arrive at 10:15 A.M.

#### DISCUSSION OF BANKING PROVISION OF NEW SOURCE REVIEW RULE

Mr. Feldstein stated that at the February 20th Board meeting the Staff will be recommending establishing a Banking Fee and there will be a review of the guidelines on interpretation of the regulation.

#### Presentation by Tom Merle, Bay Area Council

Mr. Merle presented written comments dated February 6, 1980, reviewing the moratorium on withdrawals, stating it would be disruptive to the system, discriminatory and costly; did not favor a public hearing at this time but preferred to work with the Staff in the next twelve months to determine how the system works.

In discussion, Dr. Hasseltine stated that the concept of banking was good and should work, but having a provision that the credits could be wiped out in the future, discourages banking.

Mr. Merle reviewed his Recommended Amendment to Section 308, Regulation 2, Rule 2, dated December 19, 1979.

Ms. Silver arrived at 10:31 A.M.

#### Presentation By Jeff Gabe, Citizens for a Better Environment

Mr. Gabe in comments supported the concept of a moratorium, but expressed concern about the use of a private bank; that banking did not address the problem of new facilities coming into the area; he outlined the Wickland Oil Company trade-off need and the fact that these were not obtained in the area of the proposed plant, he proposed a community bank, which he outlined; expressed

concern over the provision of shut-downs being allowed as a banking emission reduction.

In discussion, Mr. Gabe stated he was suggesting twenty-five percent of the banking emissions be put in the community bank; that sources exempt from off-set emissions now would draw from the bank.

There was discussion on the community banking concept, Dr. Hasseltine pointing out that there was no incentive for sources to put any emissions in a community bank or in any bank if there is a moratorium provision. Mr. Gabe pointed out that the banking provisions could provide a source of profit off air pollution and that it provides a certified air pollution reduction.

Mr. Feldstein advised that after the Board adopts a banking fee on February 20, 1980, the bank would open; but he did not recommend any action be taken for at least six months in order to determine if the bank is viable.

After further discussion, Ms. Silver moved that the Board hold a public hearing on the Bay Area Council proposal, on April 16, 1980; seconded by Dr. Hasseltine.

Mr. Chapman moved an amendment to the motion to broaden the public hearing to add; right of public appeal, consideration of provision of shutdowns being allowed as banked emissions, and a community bank, which additions were acceptable to Ms. Silver.

After further discussion, the motion carried on roll call:

AYES: BACCIOCCO, CHAPMAN, COOPER, CORTESE,  
HASSELTINE, KETCHAM, MCCORQUODALE,  
RUDEE, SILVER.

NOES: BOXER, KOPP, LANDIS, OGAWA, RAYMOND,  
ROBERTS.

ABSENT: ASERA, DOETSCH, FERRITO.

REPORT OF AIR POLLUTION CONTROL OFFICER  
Milton Feldstein

Discussion of Co-Lead Agency Designation

Mr. Feldstein presented his report entitled, Lead Agency Designation for Air Quality Planning, dated February 6, 1980.

Mr. Kopp moved that the Board reaffirm its position taken in 1977, and request ARB to designate the District as Co-Lead Agency; seconded by Mr. Ogawa.

The following made presentations:

Dean Macris  
Associate Executive Director  
ABAG

in comments stated there had been a very productive joint staff arrangement; that MTC needs to be considered also; that the Letter of Agreement between the agencies terminates in June; that the process for making change is complicated in that the Governor's office needs to receive local government comments thereon; requested the matter be deferred a couple of months until ABAG, MTC, and District Staffs have had an opportunity to review the Letter of Agreement and until the ABAG Board has taken a position.

Paul Maxwell  
MTC Staff

in comments referred to the Letter of Agreement between the three agencies, stating that this needs to be discussed; requested action be postponed until such discussion can take place.

Mr. McCorquodale urged the Board not to take action today, stating the District should work the matter out with the other agencies, with which Mrs. Raymond agreed. Mr. Kopp stated he felt the District should be the lead agency in air quality planning, and Mr. Powell outlined the procedure for designation of lead agency. Mr. Chapman suggested a joint meeting between ABAG, MTC, and District Staffs stating that taking unilateral action today may upset the working relationship between the three agencies.

Mr. Kopp then amended his motion to authorize the Air Pollution Control Officer to request of ARB that the BAAQMD be Lead Agency, and moved to continue the motion to the Board's next meeting; seconded by Dr. Bacciocco; carried on roll call:

AYES: BACCIOCO, BOXER, COOPER, HASSELTINE,  
KOPP, LANDIS, OGAWA, ROBERTS.

NOES: CHAPMAN, CORTESE, KETCHAM, MCCORQUODALE,  
RAYMOND, RUDEE, SILVER.

ABSENT: ASERA, DOETSCH, FERRITO.

Mr. Kopp left at 11:45 A.M.

Legislative Report

Mr. Feldstein reviewed his report entitled, Legislative Report, dated January 28, 1980, and a report entitled, Comparison of Estimated Emissions Under California and Federal Vehicle Emissions Standards, dated February 6, 1980. He urged the Board to oppose any effort to lessen California's authority for requiring more stringent automobile emissions standards and to reaffirm its position that there should be an I & M Program, pointing out that if the standards are relaxed the emissions resulting therefrom will have to be offset by further control on stationary sources.

After discussion, Mr. Landis moved that the District's legislative advocate, Mr. Jerry Desmond, be directed to oppose the proposed legislation with respect to automobile emission standards; seconded by Dr. Bacciocco; carried on roll call:

seconded by Mr. Roberts.

There was discussion on the APCO's report entitled, District Policies and Procedures Manuel, dated March 5, 1980, containing recommendations with respect §13-C-1 under Bereavement Leave, Mr. Cooper expressing concern that this would entail additional cost to the District. The Committee's recommendation with respect to the PP&P was deleted from the motion.

Dr. Hasseltine expressed concern that action was being taken on the Officers and Committees for the 1980-81 Fiscal Year now. Mr. McCorquodale explained the reasons therefor, stating there was need to continue the communication and rapport with the Legislators. Chairperson Boxer stated that this was a deviation from the norm and that it should be made clear that this deviation was only for this one year.

The motion then carried on roll call:

CONTINUATION OF PUBLIC HEARING FOR CONTROL OF EMISSIONS FROM  
PERCHLOROETHYLENE DRY CLEANING OPERATIONS (REG. 8, RULE 27)

Mr. Feldstein reviewed the background on the regulation for perchloroethylene, stating that he had requested that the Public Health Committee of the Advisory Council review the question of the carcinogenicity of perchloroethylene.

Mr. Hess reviewed the proposed changes as contained in the APCO's report entitled, Proposed Regulation 8, Rule 27 - Perchloroethylene Dry Cleaning, dated February 26, 1980.

There was discussion on §301.6 pertaining to sealed containers, Mr. Ferrito expressing concern that there were no specifications for the containers in the Regulation. Mr. Feldstein advised that the Section conformed to State Law and that it was the responsibility of the State Health Department to determine that perc was disposed of in a proper manner.

Mr. Cooper suggested that §301.6 be discussed by the Advisory Council before action is taken, pointing out that a precedence was being established by incorporating State law into the District's regulation. Mr. Asera pointed out that there were few Class I dump sites and that by the requirements under §301.6 the District might be compounding the problem, and he requested a list of such sites from the Staff.

Mr. Cooper moved the adoption of Resolution No. 1207, In the Matter of Adopting Regulation 8, Rule 27 Relating to Emissions from Perchloroethylene from Dry Cleaning Operations, with the exception of disposal of perchloroethylene, referring it to the Advisory Council for a recommendation. PUBLIC HEARING TO CONSIDER CONTROL OF EMISSIONS  
FROM GAS TURBINES (REG. 10, RULE 26)

Dr. Hasseltine arrived at 9:55 a.m.

Mr. Goalwin requested the following corrections in the Regulation:

10-26-201 - Line 2, change "valve" to "value".

10-26-205 - Line 2, delete the comma at the end of the line; line 3 - hyphenate the word, steam-electric.

In discussion Mr. McCorquodale suggested that 10-26-101 - Description - include the word "stationary" so that it is apparent the regulation is not applicable to aircraft, and it was agreed to amend line 2 to read, "Oxides of . . . from stationary gas. . . ."

Chairperson Boxer opened the Public Hearing at 10:05 a.m.

- - -

Mr. Feldstein reported on the I&M legislation, specifically AB-2145 (Calvo) pointing out that the proposal would keep the State's standards except for a change in the NO<sub>x</sub> standards for passenger cars.

There was discussion on the effect the change would have on air quality in the District; the differences between the Foran and Calvo bills; the effect the legislation would have on the consumer, Mr. Feldstein reading from Assemblyperson Ingalls' statement to the Assembly Transportation Committee in which the changes in the Calvo bill were made.

Mr. Cooper arrived at 10:20 a.m.

DISCUSSION OF EMPLOYEE ASSOCIATION  
REQUEST REGARDING SALARY PARITY

Ted McEwen, President  
BAAQMD Employee Association

stated that the Association felt the 8% ceiling affected those salaries which were most out of line; that the balance of the Beaman survey should be implemented; that the Personnel Department survey as set forth in the APCO's report compared job titles and not job comparisons.

Mr. McCorquodale moved to implement the Beaman report in its full amount; seconded by Mr. Ferrito.

In discussion, Mr. McCorquodale spoke to the philosophy of his motion, stating that the Board should not ask employees to work out of the level of classification without compensation.

Mr. Cooper pointed out that the Beaman report was now 2 years old and that during this time employees had received a 22% increase. He then moved a substitute motion to refer the matter to Executive Session; seconded by Mr. Doetsch.

Several Directors spoke to the motion some being in favor of the employees receiving parity, and others pointing out that the data in the Beaman report had never been substantiated. Mr. Cooper objected to the Directors continuing to comment with his substitute motion pending. Chairperson Boxer ruled that in debating Mr. Cooper's motion any and all comments by Board members would be heard.

Mr. Cooper moved to appeal the rule of the Chair and to limit discussion; seconded by Mr. Kopp; failed on roll call:

AYES:	COOPER, CORTESE, DOETSCH, HASSELTINE, KOPP, OGAWA.
NOES:	ASERA, BACCIOCCO, BOXER, CHAPMAN, FERRITO, LANDIS, McCORQUODALE, RUDEE.
ABSENT:	KETCHAM, RAYMOND, ROBERTS, SILVER.

There was further discussion on the increases which the employees had received during the past 2 years and that which was received under the Beaman report; that there needed to be an updating of the report before action was taken; that during the past 2 years there had been only a 5% turnover; that the Board had delayed action on this matter, after which Mr. Cooper's substitute motion failed on roll call:

AYES:	BACCIOCCO, COOPER, CORTESE, HASSELTINE, KOPP, LANDIS, OGAWA.
NOES:	ASERA, BOXER, CHAPMAN, DOETSCH, FERRITO, McCOR- QUODALE, RUDEE.
ABSENT:	KETCHAM, RAYMOND, ROBERTS, SILVER.

In discussion of Mr. McCorquodale's motion, it was proposed that if it passed the effective date would be May 1, 1980 and said increase would be based on the 1977 base salary.

After further discussion of the salary on which the increase would be based, Mr. Doetsch moved to reconsider Mr. Cooper's substitute motion; seconded by Mr. Asera.

There was discussion as to whether this was an appropriate Executive Session matter, Mr. Powell responding in the affirmative.

Mr. Doetsch's motion then carried on roll call:

AYES:	ASERA, BACCIOCCO, COOPER, CORTESE, DOETSCH, HASSEL- TINE, KOPP, LANDIS, OGAWA.
NOES:	BOXER, CHAPMAN, FERRITO, McCORQUODALE, RUDEE.
ABSENT:	KETCHAM, RAYMOND, ROBERTS, SILVER.

NOES:	BOXER, CHAPMAN, FERRITO, McCORQUODALE, RUDEE.

PUBLIC HEARING TO CONSIDER AMENDMENTS TO  
REGULATION 2, RULE 2 CONCERNING BANKING (COMMUNITY  
BANKING, PUBLIC APPEAL, MORATORIUM AND PLANT SHUT-DOWNS)

Mr. Feldstein reviewed his report entitled, Amendments to Banking Regulation, dated April 30, 1980, specifically Table I.

Ms. Silver arrived at 10:00 A.M.

He reviewed the language changes supporting the Staff's recommendations.

In discussion of Mr. Cooper's concern about the change in the Appeal process, Mr. Powell advised that in the present proposal the Appeal procedure would start after the Certificate of Banking had been issued. After discussion of this procedure, the Board agreed that the APCO should announce his intent to grant a Certificate at which time the Appeal procedure would start, rather than after the Certificate is issued and that the regulation should be so amended.

Dr. Hasseltine arrived at 10:11 A.M.

Mr. Feldstein reviewed the Staff's objections to CBE's proposal on restricting use of shutdowns for banking, as well as the Staff's opposition to the Bay Area Council proposal on moratoriums.

Chairperson Boxer opened the public hearing at 10:22 A.M.

Mr. Powell presented the Clerk with 9 Affidavits of Publication of Notice of Public Hearings.

The following made presentations:

Jeff Gabe  
Citizens for a Better Environment

reviewed his proposal with respect to banking of emissions from

shutdowns, stating reductions should be real ones and not be double counted.

There was discussion on the double counting of emissions; the need to meet the RFP and the suggestion of crediting one half of the emissions banked.

Mr. Gabe reviewed his proposal on community banking, stating it would encourage new economic development.

Nancy Matthews  
ARB

supported the Staff's recommendations; suggested with respect to shutdowns that the baseline of emissions be that which would have been produced if LAER had been used, thus preventing double counting; supported the idea of community banking.

Tom Merle  
Bay Area Council

reviewed the banking concept and how it revolved; reviewed their proposal on the moratorium and the reasons therefor, stating that sources needed to be encouraged to deposit in the bank but there was reluctance to so do based on the Staff's proposal.

There was considerable Board discussion on this concern.

Mr. Merle spoke to CBE's shutdown proposal, stating that shutdowns were not factored into the AQMP; that National trends were used.

Mr. Merle supported the concept of Community banking, but suggested the proposal be tabled until experience on the Banking regulation had been gained.

Frank Stead

objected to the inclusion of the phrase in section 2-2-307, "or the approved air quality management plan" recommending that any reference to AQMP be deleted and that the regulation be restricted to fix emissions.

Don F. McKenzie  
Pacific Gas and Electric Company

supported the Bay Area Council objection to a moratorium for withdrawals; supported the Staff's opposition to CBE's shutdown and community bank proposals.

Mrs. Raymond moved the public hearing be closed at 11:40 A.M.; seconded by Dr. Hasseltine; carried.

Dr. Hasseltine moved to adopt the Bay Area Council's language on no moratorium on withdrawals, Section 2-2-308; seconded by Mr. Cooper.

There was discussion on including in the motion a concept of a moratorium on deposits, which was acceptable to Dr. Hasseltine

The motion then carried on roll call:

AYES: BACCIOCCO, BOXER, COOPER, CORTESE,  
DAMONTE, DOETSCH, HASSELTINE, LANDIS,  
McCORQUODALE, OGAWA, RAYMOND, ROBERTS,  
RUDEE, SILVER.

NOES: CHAPMAN.

ABSENT: ASERA, FERRITO, KOPP.

Mr. Raymond moved the adoption in concept with respect to the use of shutdowns for Banking that the source be given credit for the difference between use of Reasonable Available Control Technology and zero; seconded by Mr. Landis; carried on roll call:

AYES: BACCIOCCO, BOXER, CHAPMAN, CORTESE,  
DAMONTE, DOETSCH, HASSELTINE, LANDIS,  
McCORQUODALE, OGAWA, RAYMOND, ROBERTS,  
RUDEE, SILVER.

NOES: COOPER.

ABSENT: ASERA, FERRITO, KOPP.

Mr. Chapman moved a change in the Bay Area Council proposed Section 2-2-308 on moratoriums, to change "may" in line 4 to "shall"; seconded by Mr. McCorquodale.

There was discussion on the desirability of the APCO having the flexibility of bringing the concern of RFP to the Board rather than automatically closing the Bank; that other regulations may have to be adopted rather than declaring a moratorium on the Bank; that either way the APCO would be consulting with the Board before declaring a moratorium.

The motion failed on roll call:

AYES: BACCIOCCO, BOXER, CHAPMAN, McCORQUODALE,  
RUDEE.

NOES: COOPER, CORTESE, DAMONTE, DOETSCH,  
HASSELTINE, LANDIS, OGAWA, RAYMOND,  
ROBERTS, SILVER.

ABSENT: ASERA, FERRITO, KOPP.

Mr. Cooper moved the adoption of the proposal to Notify persons requesting information on banking transactions by mail; seconded by Dr. Hasseltine; carried on unanimous voice vote, with Directors Asera, Ferrito and Kopp absent.

Mr. Cooper moved the adoption in concept a section to Allow any person to appeal Banking decisions to the Hearing Board, but changing the Appeal procedure so that interested persons would be appealing prior to the final Certificate being issued by the APCO; seconded by Mr. Chapman; carried on roll call:

AYES:

BACCIOCCO, BOXER, CHAPMAN, COOPER,  
CORTESE, DAMONTE, DOETSCH, HASSELTINE,  
LANDIS, MCCORQUODALE, OGAWA, RAYMOND,  
ROBERTS, RUDEE, SILVER.

NOES:

NONE.

ABSENT:

ASERA, FERRITO, KOPP.

Mr. Cooper moved to deny at this time the establishment of a Community Bank, and requesting a report on May 7, 1981 as to how the Banking program is working; seconded by Mr. Landis; carried on voice vote with Directors Chapman, Hasseltine, McCorquodale and Silver voting no; and Directors Asera, Ferrito, and Kopp absent.

Ms. Silver objected to the motion on the Community Bank and the process of its adoption, after which Mr. Cooper suggested that she send a letter on the matter prior to the next Board meeting on May 21, at which time if she wanted to make a motion to rescind it, this could be done.
